

Architectural and Artistic Ceramics creations by a Master Craftsman for the whole house !

Treat yourself to real craftsmanship from floor to ceiling -
a new and unique piece signed **ARIANE Artignan-Coissieux**

Exciting new kitchen tiling has emerged from the **AGIR Céramique** studio, making possible glazed surfaces that will transform walls and work-surfaces. The tiling is an innovative architectural creation, signed by **ARIANE Artignan-Coissieux** as an individual work of art when it is installed.

Mural sculpture ranging from the miniature to the monumental

Her creations in stoneware and porcelain – whether functional pieces or poetic sculptures – are characteristically pure in line, enhanced by her use of rich, warm colours or soft, subtle shades. Working with dexterity and finesse, Ariane produces work in porcelain which glows with a delicate translucence as if woven from dreams.

Her work is exhibited world-wide, from Taiwan to Spain...

AGIR Céramique undertakes projects to order in response to professional or individual requirements. Thanks to her experience, her mastery of the techniques involved and her ongoing in-depth research, Ariane fully exploits all the potential of the clay.

ARIANE Artignan-Coissieux has practised ceramics since her earliest childhood and worked professionally over twenty years. Her skills, imagination and expertise enable her to offer an inspiring range of artistic and architectural products.

The latest lamps to emerge from Ariane's kiln:

Tiling for lining and decorating surfaces, smooth or with designs in relief, for cornices, mural sculptures, washbasins etc, and a new collection of lamps in porcelain – translucent and delicate – are all among the latest creations to appear from AGIR Céramique, some of them in collaboration with architects and designers.
